

# Funding Competition - New approaches to record and integrate cancer PROMs and PREMs

Information Session for Interested Applicants  
19 April 2017

# Outline agenda

- 10.00-10.15 Arrivals
- 10.15-10.35 Introduction to the Cancer Innovation Challenge and to the funding call process – **Steph Wright** (Data Lab)
- 10.25-11.00 Clinical context to the Challenge - **Peter Hall** (University of Edinburgh), **Mary Wells** (NMAHP-RU) and **Brian McKinstry** (Usher Institute)
- 11.00-11.20 Leeds Institute of Cancer and Pathology (LICAP) work - **Penny Wright**
- 11.20-11.40 Cancer Medicines Outcomes Programme (CMOP) - **Marion Bennie**
- 11.40--12.00 NHS E-Health – **Julie Falconer** (Scottish Government/IHDP)
- 12.00-12.30 Open Q&A with panel  
Speakers + **Elsbeth Banks** (Patient Rep) + **Michelle Brogan** (SCTT) + **Karen Seditas** (IHDP) + **Marian McNeil** (SMS) + **Dave Fitch** (Data Lab) + **Veronica Arias** (DHI)
- 12.30-12.35 Wrap up

# Introduction to the challenge and call process

Steph Wright, Project Manager, Cancer  
Innovation Challenge

[steph.wright@thedatalab.com](mailto:steph.wright@thedatalab.com)

# What is it?

The Cancer Innovation Challenge is a project funded by the Scottish Funding Council (SFC) to encourage Innovation Centres in Scotland to work in partnership to help Scotland become a world leading carer for people with cancer.

The project brings together three Innovation Centres, led by **The Data Lab** in collaboration with the **Digital Health and Care Institute (DHI)** and **Stratified Medicine Scotland (SMS)**.

Funded by

A collaboration between three Innovation Centres

Supported by

THE UNIVERSITY of EDINBURGH

## What is it? (cont.)

The Challenge has two major work streams:

- An open innovation funding call to identify innovative cancer data science solutions
- An open innovation funding call to develop new tools for patient reported outcomes and experiences

There will be a programme of activities surrounding each work stream involving industry, the public and a variety of stakeholders in the wider health sector.

# Launch

Publicly launched at Data Summit on 24 March 2017 by Catherine Calderwood (Chief Medical Officer)

Press coverage in Scotsman and Future Scot

# Ways to be part of the challenge

## Apply for funding

- PROMs/PREMs funding call launched Monday 3 April 2017

## Respond to cancer data consultation

- Inviting people to respond to a consultation to help shape the cancer data funding call
- This consultation will help shape the funding call which will launch in July 2017 (date TBC)

## Take part in the Cancer Data Dive

- The first 'event' of the Challenge is a Cancer Data Dive (hackathon) on 15-18 June 2017. This event will use synthetic cancer data sets specifically created for this event. Open to anyone

## Public engagement events

- First event - part of the Cabaret of Dangerous Ideas programme at the Edinburgh Fringe Festival. Further events TBC.

## Become a funding reviewer

- We are inviting interested persons with appropriate data/tech/clinical backgrounds to apply to be funding reviewers to complement our internal pool

# New approaches to record and integrate cancer PROMs and PREMs

Up to **£325k** available. SBRI framework. IP stays with project.

You can apply as part of a collaboration but a registered company must be the lead

Two phased funding process:

- **Phase 1 (feasibility studies)** – Up to £25k x 5 proposals
- **Phase 2 (proof of concept)** – £200k available for up to 2 proposals

Phase 1 is open to any company/organisation in the UK.

Phase 2 is only open to projects funded in Phase 1.

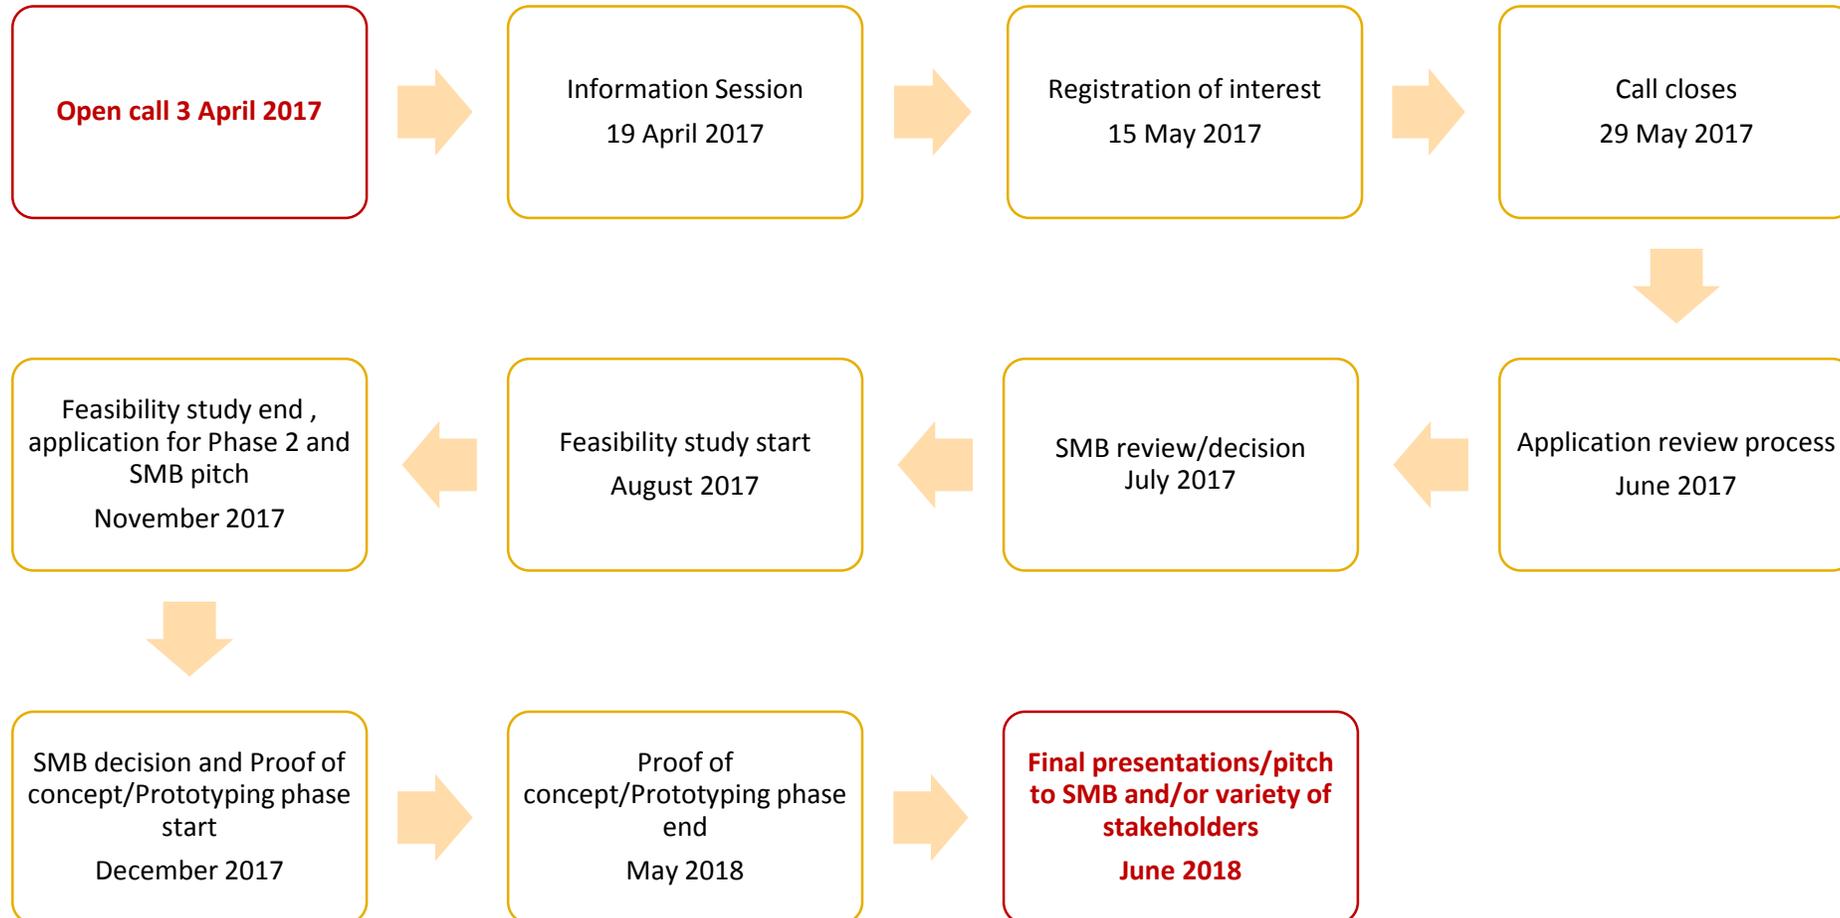

# Important dates

You must register to apply by 15 May 2017.

Once registered, you will be sent a link to the competition documents and the application form.

**Applications for Phase 1 must be received by midnight 29 May 2017**

# Outline Timeline

# Review Process

## Phase 1

- Each proposal will be reviewed and scored by 4 assessors (clinical, technical, business development and patient perspectives)
- Assessment criteria is available in the Invitation to Tender document
- The Strategic Management Board for the Cancer Innovation Challenge will review the scores and make the final funding decisions

## Phase 2

- Assessment criteria will be made available to Phase 1 projects once under way
- Each project will have to attend an interview/pitch to the Strategic Management Board

# Patient Involvement

As this funding competition is around patient centred care, we have patients involved at every stage.

Each proposal will be assessed by a patient assessor.

Each feasibility study project will have access to patients/citizens panels

Each proof of concept project will have access to patients/citizens panels

# NHS E-Health

Any proposed solution will need to be able to integrate into the NHS E-Health infrastructure in Scotland.

We will provide necessary contacts for proposals/projects at the feasibility study stage.

# Project End

At the end of Phase 2, we will be asking the successful project to present their work and findings via

- Final formal project report
- Final presentation/pitch to Strategic Management Board and invited stakeholders (potential routes to market)
- Final presentation/pitch to a public audience

Projects that do not progress from Phase 1 to Phase 2 will be invited to a collider event involving potential alternative funding routes
